

VIVANCO19" Optical Fiber Patch Panel with Splitter, Fully Loaded

Brand: Vivanco
Availability: In Stock

Short Description

Fiber patch panel with PLC splitter, 19" rack mount, 1RU, SC/LC adaptors, 1 or 2 inputs, 8 to 32 output ports, fully loaded, black

Description

The 19-inch Sliding Fiber Optic Splitter Panel is designed for quick installation and easy access to the splitter ports, which maximize fiber density in 1U rack spaces. Fiber management is integrated into the front of the splitter panel to facilitate efficient management of the fiber jumpers. PLC splitters are based on Planar Lightwave Circuit technology with precision alignment. They split or combine light from one or two input fibers and multiple output fibers uniformly over a wide spectral range with ultra-low insertion loss and low polarization dependent loss. Splitters offer excellent optical performance and high reliability, and are fully compliant with Telcordia GR-1209 and GR-1221.

Features & Benefits

1. Fast and easy front access to all splitter ports
2. Bi-directional performance with accurate splitting ratios
3. Ultra-broadband range(1260-1650nm)
4. Low insertion loss
5. Excellent uniformity
6. Low Polarization Dependent Loss(PDL)

7. Low Polarization Mode Dispersion(PMD)
8. Solid steel construction from powder coated CRCA
9. Integrated fiber management accessories
10. 2011/65/EU RoHS compliant and halogen free
11. GR-1209 and GR-1221 compliant splitters

Specification

Material	Plastic/SPCC
Surface	Spray
Color	Black
Width (mm)	485
Depth (mm)	340
Height (mm)	44
Max. Core Number	96
Standard Compliance	ISO/IEC11801

ANSI/TIA/EIA 568-C.3
